U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (7505C)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

432-1531

Date of Issuance:

MAR 11 2014

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

BES0600 Insecticide

Name and Address of Registrant (include ZIP Code):

Bayer CropScience LP  
BCS-NA-RA  
Research Triangle Park, NC 27709

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/registration review of your product under FIFRA when the EPA requires all registrants of similar products to submit such data. You must comply with DCI ID# GDCI 044309-1185 issued on 3/13/13. If you have questions about the Generic DCI issued, you may contact Russel Wasem from the Pesticide Re-evaluation Division.
2. Submit 2 copies of your final printed label before release for shipment.
3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
4. For future submissions, make the following changes to your Confidential Statement of Formulation (EPA Form 8570-4):
  - a. Box 4: Revise the EPA Reg. No. so it reads, "EPA Reg. No. 432-1531."
5. Make the following label changes before you release the product for shipment:
  - a. Revise the EPA Registration Number to read, "EPA Reg. No 432-1531."

## PRECAUTIONARY STATEMENTS

### PHYSICAL & CHEMICAL HAZARDS

Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use this product for the control of cockroaches in areas where they are a problem: residences and institutional, warehousing and commercial establishments, including food service, food manufacturing and food processing facilities, stores, hospitals, schools, daycare centers, nursing homes, health care facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos (indoor and / or crack and crevice treatment only), basements, buses, boats, trains, aircraft and sub-surface utility systems (steam / electric / gas / data tunnels, drainage systems and sanitary sewers) that are not storm or runoff drainage systems. May be used in both indoor and outdoor (adjacent to structures) environments.

### USE DIRECTIONS

Place bait into crack and crevices or openings leading into voids, or make spot applications near harborages, aggregation, foraging / feeding areas.

Examples of locations for bait placement include: between different elements of construction; the hollow spaces in floors, walls, ceilings, or in equipment legs and bases; cracks and crevices around pipes, doors or windows, refrigerators, stoves, water heaters, dishwashers, and other equipment; behind or under baseboards, cupboards, cabinets, countertops, sinks; and, wherever cockroaches may be found hiding.

Numerous smaller placements will provide faster control than fewer larger spots, especially for German cockroach control.

Application rates for all cockroaches: Application rate is dependent on level of infestation and species to be controlled. Apply gel as round spots or thin beads into cracks and crevices or as a spot treatment.

- For use in **maintenance programs** where regular [monthly, quarterly] applications are made for continuous control of cockroach populations, use 0.75 grams of bait per square yard.
- For **light to moderate infestations** (or for retreatments), use up to 1.5 grams of bait per square yard.

- To clean out severe or heavy infestations, use up to 3.0 grams of bait per square yard.

**BAIT QUANTITY REFERENCE TABLE**

Approximate weight per spot diameter	Approximate weight per bead length
0.1 gram = Pea size spot	0.25 gram = 1.5 inch bead
1.0 gram = Dime size spot	0.5 gram = 3.0 inch bead
1.5 gram = Quarter size spot	1.0gram = 6 inch bead

**APPLICATIONS IN FOOD/FEED HANDLING ESTABLISHMENTS**  
 Application within food/feed areas of food/feed handling establishments is limited to crack and crevice treatment only. Care should be taken to avoid depositing gel onto exposed surfaces; if gel contacts an exposed surface where food is handled, remove gel and wash exposed surface followed by a potable water rinse. Food/feed areas include areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation. **Application of this product in food/feed areas of food/feed handling establishments other than as a crack and crevice treatment is not permitted.**

**FOR OUTDOOR USE** (adjacent to home or structure)  
 Inject bait into crack and crevices or expansion joints around windows and doors, porches, screens, eaves, sills, patios, garages, under stairways and other areas adjacent to structures where cockroaches may find harborage.

**USE RESTRICTIONS**

- Keep gel away from foods and food contact or preparation surfaces.
- Do not apply to areas where food/feed, utensils or processing surfaces may become contaminated.
- USE ONLY IN AREAS NOT EASILY ACCESSIBLE TO CHILDREN, PETS, AND OTHER NON-TARGET ORGANISMS.**

**STORAGE AND DISPOSAL**  
 Do not contaminate water, food, or feed by storage or disposal.  
**PESTICIDE STORAGE:** Store in a cool, dry area out of reach of children.  
**PESTICIDE DISPOSAL:** If Empty: Do not reuse container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.  
 If you have questions regarding the use of this product, please call 1-800-331-2867.

**IMPORTANT: READ BEFORE USE**

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitations of Liability.

**CONDITIONS:** The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Plant injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control Bayer CropScience LP. All such risks shall be assumed by the user or buyer.

BES0600 Insecticide (PENDING) 05/06/2013, 03/06/2014, 03/10/2014

**MARKETING CLAIMS:**

- Does not contain milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat or soybeans.
  - Contains none of the major food allergens
  - Contains none of the Big 8 food allergens.
  - No vapor, fumes or odor
  - No messy residue
  - A clean, white bait that is less visible in many locations
  - For use in commercial, industrial and residential areas
  - Ideal for use in sensitive accounts and areas
  - For indoor and outdoor use
  - German cockroaches are knocked down within 6 to 8 hours of eating the bait
  - American cockroaches begin dying within 1 to 2 days of eating the bait
  - German cockroach control is visible overnight
  - Pest population reduction begins within 1 to 2 days for German cockroaches and within 1 week for American cockroaches.
  - After cockroaches eat the bait, they return to the harborage and contaminate or kill other cockroaches.
  - Kills roaches you don't see
  - Kills cockroaches in their harborage.
  - This product effectively controls large cockroaches†.
  - This product controls large cockroach† populations in 14 days at the higher listed rate.
- † American, Oriental, Brown, Smoky Brown
